OR

SUNDRY APPARATUS.

Write us and state your wants. Special quotations and lists post free.

Simple deferred payment terms convenient to yourself arranged.

WELCOME NEWS TO PLATE USERS

Further proof of "Invincible Salex Value"

Gigantic "Cut" in Plate Prices

$33\frac{1}{3}\%$ Reduction — Quality Unsurpassed

For several years now, we have been made aware, by many of the thousands of customers on our books, that the present day cost of plates had considerably restricted, and in many cases entirely prohibited, the pursuit of their favourite hobby photography. This Company always alive to the requirements and needs of their clients, have not been behind hand in their endeavours to supply a first-class plate at a more reasonable price, and are glad to be able to announce that they are now in a position to place upon the market a first-rate Non-Screen Orthochromatic Plate, Speed 450 H. & D. which, while being unsurpassed in quality by any other make, is offered at a reduction of $33\frac{1}{3}$ per cent. off present list prices. We are only able to offer this astounding reduction in price by the great volume of support which we are sure our enterprise will be accorded by the thousands of photographers, Amateur and Professional, who have hitherto been prohibited by the cost from carrying out their wishes in the making of Photographs. Despite the tremendous reduction in prices, we wish to make it quite clear that the Salex Plates now offered are certainly not inferior in quality to any at present on the market. Indeed on trial we are confident that a very large percentage of our customers will agree that they are superior to the brands they at present use. In any case a few trial exposures do not represent an extortionate outlay, and for a period of one month up to and including June—as an advertising offer, and to justify our confidence in the superfine qualities of "Salex" Non-Screen Plates, **we are prepared to forward orders of not less than three boxes, any size, post free in the United Kingdom.**

The SALEX PLATES we now offer are by far the most popular type in use at the present day, viz., 450 H. & D. Non-Screen Ortho, specially corrected for yellow and green, but other types are in course of preparation, and will be placed upon the market in due course.

We are sure that this is a move in the right direction, and that our enterprise will be appreciated by our Amateur friends, both novice and expert.

We have no doubt our efforts to reduce expense will lead to a revival of enthusiasm for the finest of all hobbies and to an intelligent interest being taken in the Production of really good negatives BY THE INDIVIDUAL.

SPECIAL OFFER.—To those not now in possession of plate Cameras, owing to the hitherto excessive cost of running them, we would direct attention to a very special offer we are making on pages 5 and 6, which will put them in possession of a really reliable second-hand outfit at an extremely moderate cost, and in addition will supply them with a parcel of Salex Plates (according to value of purchase) entirely free of cost, as an advertisement of the excellent qualities of these plates and as an additional inducement to renew the pursuit of their hobby at a reasonable first cost.

An exceptional opportunity to secure a popular type of Pocket Camera by a well-known maker, complete and ready for use, at less than half actual cost.

Film Pack Adapter for any Outfit— $\frac{1}{4}$ -plate 5/—, P.C. 7/6 extra.

A SPECIAL OFFER TO THOSE WHO PREFER PLATES.

As a special inducement to plate photographers and to introduce and advertise our latest enterprise—a gigantic cut in prices of plates—The City Sale and Exchange, Ltd., will present to each purchaser of one of the second-hand Plate Cameras offered on this and the following page, value 21/- or over, one box of the New Salex Non-Screen Ortho Plates H. & D., speed 450, free of cost. To purchasers of a camera minimum cost 42/-, 2 boxes of 12 Salex Plates, and to purchasers of a camera, minimum value £3 3 0, 3 boxes of 12 Salex Plates. This offer is extended not only to our old customers, but to any photographer who prefers plates to films, and who will thereby be encouraged to resume with vigour the pursuit of photography as a hobby, which owing to the prohibitive prices of plates has had to be more or less restricted since the war.

"Salex" plates are guaranteed at least equal in quality to any other plates on the market, and we are confident our sporting offer will induce you to proclaim their virtues to your fellow photographers. Once you have tried Salex Plates you will never use any other.

ROLL FILM CAMERAS

NOTE.—See Vest Pocket Cameras, page 16, for Roll Film Instruments to take Films size $3\frac{1}{4}'' \times 2\frac{1}{4}''$ or smaller.

Generally speaking these cameras take all standard makes of roll film; loading, unloading and developing can therefore be carried out in daylight, and these cameras make a very strong appeal to those photographers who demand convenience. Price may be taken as an indication of capability, and the purchaser may be assured that extra price means extra quality and convenience. Here also we would urge

customers to inspect our full stock which is far too large to list, or write their individual requirements.

Any make of Roll Film Camera.—New as well as secondhand will be supplied on Easy Payment Terms to suit the individual purchaser's own convenience.

Exchanges, too, will be arranged on the most generous terms. Submit your goods for free valuation. Call, if possible, or write.

New Roll Film Cameras.—All latest models by every maker kept in stock. Kodak, Carbine, Ensign, Contessa Nettel, Goerz, Ica, Newman & Guardia.

Butcher's Famous Watch Pocket Carbines

No. 4. FOR ROLL FILMS $2\frac{1}{2} \times 3\frac{1}{4}$ (6×9 cm.)

The advantage of possessing a camera fitted with an anastigmat lens of proved quality, backed by the unconditional guarantee of a reputed maker of lenses, is evident.

No. 6 F/4.5 Speed Model. FOR ROLL FILMS or ROLL FILMS and PLATES, $2\frac{1}{2} \times 3\frac{1}{4}$ (6×9 cm.)

For those whose photography is not to be limited to ordinary subjects in fine weather, the possession of a camera capable of giving well-exposed pictures is of great importance. Particularly in this country, where the light is so unreliable, is it necessary to have a lens which will enable you to be independent of sunshine.

Of British Design, Manufacture and Workmanship throughout, fitted with a genuine Aldis Anastigmat, fully guaranteed and working at F/7.7, brilliant reversible finder, leather covered — and bushed for tripod —

REDUCED 1925 PRICES.

3 Speed Shutter $1/25$ — $1/100$ T. & B.

With F/2.9 PENTAC LENS.

2½ x 3¼ ins.

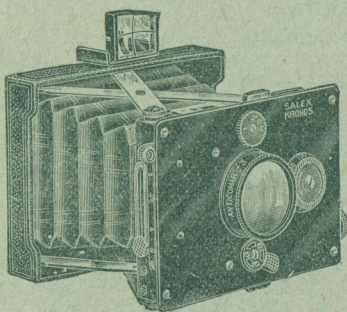

£17 17s. 0d.

The very latest and fastest roll film on the market. British made and of the highest quality associated with all the products of Messrs. Dallmeyer. Taking standard size 2½ x 3¼" roll films, obtainable anywhere, and fitted with Dallmeyer F/2.9 Pentac lens in Compur sector shutter, giving exposures from 1 second to 1/150 sec. T.&B. An all year round camera for pictures in any weather and in any light. Fitted with lever focussing adjustment, rising and cross front, and direct vision frame finder. Beautifully finished throughout. A triumph of British workmanship.

Full descriptive leaflet free on application

A Superspeed Camera—The Makina

With F/3 Anastigmat.

Three times as fast as F/4.5. An instantaneous success since its introduction. The Makina has answered all tests with flying colours. A triumph of precision, engineering and optical excellence. In performance it is excelled by none. Extremely compact, simple and precise in operation, it is the ideal instrument for expert or beginner. A camera you can have always with you without inconvenience, and one that will give you a first-rate negative in

June or December. The Anti-Comar Anastigmat F/3 (F/3.2 in 3½ x 2½ size) has passed the most exacting tests and we state with confidence has no superior. Fitted with Compur shutter and including 6 slides and Film/Pack Adapter.

THE 1925 REFLEX

Pre-War Values

OVER 200 SOLD IN 3 MONTHS—A FACT WHICH SPEAKS FOR ITSELF

No other Firm can possibly give you the same value.

Owing to an enormous purchase of up-to-date Brand New 1924 THORNTON-PICKARD Reflex Cameras, and of GENUINE CARL ZEISS JENA F/4.5 TRIOTAR ANASTIGMAT LENSES we are able to offer our customers absolutely the finest value in Reflex outfits that has ever been placed on the market. These outfits are all brand new unsoiled goods and carry the Makers and our full guarantee in every detail. WE INVITE COMPARISON OF INTRINSIC VALUE WITH ANY OTHER REFLEX CAMERA ON THE MARKET, and are willing to submit this bargain for your free trial for seven days, to allow you to satisfy yourself that our offer is genuine and bonafide and to compare values.

We cannot Say or Do more to prove to you that we are now offering you the absolute limit in value. An offer which is only possible to a firm of our enormous resources, and an offer which we are confident cannot be made by any other firm in the trade. Having contracted for the total output from their factories of these THORNTON - PICKARD Cameras and ZEISS LENSES, we wish to emphasize the fact that no other firm are in a position to offer the same value.

1-plate Thornton-Pickard Junior Special Ruby Reflex with Genuine Carl Zeiss (Jena) F/4.5 Triotar Anastigmat and 3 slides or Film Pack Adapter

£10 17 6

AN UNIQUE COMBINATION of admittedly the finest value in Popular price Reflex Cameras and an F/4.5 Zeiss Anastigmat by the leading manufacturers in the world.

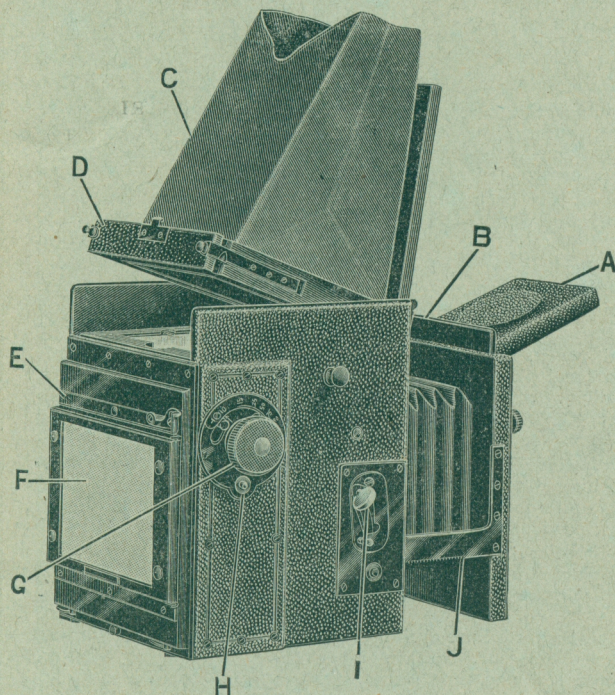

THERE IS NOTHING APPROACHING THIS OUTFIT IN VALUE ON THE MARKET TO-DAY.

Simple deferred payment terms convenient to yourself arranged.

SENSATION.

Left Far Behind.

This excellent outfit has all modern improvements, as shown in illustration, and is the simplest Reflex Camera to operate. Only two movements are necessary. Wind the shutter to the speed required, and press down release knob.

A—Lens cover and sky shade.

B—Rising front.

C—Deep leather focussing hood.

D—Hood raising adjustment for cleaning top focussing screen.

E—All metal reversible back.

F—Back focussing screen for use on tripod.

G—T.P. Self Capping Blind Focal Plane Shutter giving exposures 1/10th to 1/1,000th sec. and time with half turn of winding knob.

H—Auto stop. Simple adjustment for repeating same speed exposures automatically.

I—Release lever for mirror and shutter.

J—Strong Girder Racks, rigid at any extension.

Leather covered, strong handle and bushed for tripod. Complete with 3 slides *or* Film Pack Adapter.

TRIED, TESTED AND PROVED UNBEATEN!!!

"The Salex Collapsible Focal Plane."

Essentially a Pocket Camera in all sizes and undoubtedly the neatest, lightest and most compact high speed camera ever produced. A marvel of simplicity and efficiency—remarkable results obtained under the most indifferent and adverse lighting conditions. The large number of unsolicited testimonials received are proof of the sterling quality of these now **world famous** instruments. Made in four sizes, all of which can easily be carried in the pocket.

Although unapproachable from the point of view of value as well as quality, we have, in keeping with the times, reduced the prices as from April 29th—not a trifle, but 25 per cent., thus placing within the reach of all a high grade perfect pocket high speed or ordinary type folding camera. Although reduced in price, the standard of quality and efficiency has been maintained.

Many prize-winning pictures are spoiled through lack of speed. The Salex focal plane, whilst possessing all the movements and compactness of the ordinary folding camera, has the distinct advantage of the high speed focal plane shutter, as well as time and slow exposures, making failure practically impossible.

GENERAL SPECIFICATION.—Constructed of metal throughout, erected with one movement, fitted direct view finder, with special arrangement for protecting lens and finder when camera is closed, simple but thoroughly efficient focal plane shutter, speeded to 1/1000th, actual speeds engraved, with no calculations, cable release, leather bellows, hooded back, focussing screen. Camera is covered leather, bushed for tripod, 6 dark slides are included with the V.P. and $3\frac{1}{2} \times 2\frac{1}{2}$ sizes, and a film pack adapter with the former. 3 slides included with the other sizes. F.P.A. for $3\frac{1}{2} \times 2\frac{1}{2}$ 10/-, $\frac{1}{4}$ plate and P.C. 12/6. Extra slides for V.P. size $1\frac{1}{4}$ each, $3\frac{1}{2} \times 2\frac{1}{2}$ 2/- each, and $\frac{1}{4}$ plate and P.C. 2/9.

THE CINE-KODAK and KODASCOPE

For Taking Motion Pictures.

For Projecting Motion Pictures.

The Cine Kodak is simple to use. Any photographer with the average amount of intelligence is assured of excellent results. The cost of developing and producing the transparency is included in the original cost of the film, and being done by the Kodak Company the user is assured of the best possible results. The Cine Kodak is compact and portable, loaded in daylight and will take 100 feet of Cine Kodak Film. Supplied either with motor drive attachment for use in the hand, or with tripod as preferred.

A simple fire-proof Projector giving brilliantly illuminated pictures 40×30 inches (18 feet from screen). The Kodascope holds 400 feet of film, equal to 1,000 feet of ordinary cinema film, and lasting 16 minutes. The Kodascope can be attached to any house circuit alternating or direct, resistance being required for current over 125 volts. It is motor driven and after switching on the light and motor no further attention is required.

WONDERFUL OFFER

of Microscopes of the world-renowned Koristka make

We are now offering a small quantity of new Koristka microscopes at a discount of $33\frac{1}{2}\%$ (or more) off the present list price, to effect immediate clearance, with a view to reducing our heavy stocks. Those desirous of purchasing a first-class instrument at a really bargain price should avail themselves of one of these offers, which cannot under any circumstances be repeated.

AS THERE IS SURE TO BE AN IMMEDIATELY HEAVY DEMAND FOR THESE INSTRUMENTS, PROMPT APPLICATION SHOULD BE MADE TO AVOID DISAPPOINTMENT.

All the instruments offered are guaranteed to be new, of the latest pattern, and optically perfect, the Koristka objectives are acknowledged to be, by experts, equal to the best and most expensive German makes. We will send any microscope on 7 days' approval against deposit; and are willing to supply on Deferred Payment terms, and accept payments to suit each purchaser's own individual convenience. Any microscope purchased will be exchanged to full value at any time within one month from date of invoice, the full price being allowed in exchange for any other microscope of equal or greater value.

LATEST PATTERN OUTFIT FOR 42/-

High class British made Folding Pocket hand and stand cameras, in $\frac{1}{4}$ plate size only. We are offering a limited number of genuine T.P. Imperial Folding Pocket Cameras, neat and compact little instruments suitable for all round work. They are ideal as a Home, Holiday or Occasional companion. This is not merely a "Sunshine" camera, the high quality of the lens (doubly corrected anastigmat) giving it the distinct advantage of being able to produce pictures where lighting and other conditions make it impossible to do so with the ordinary type of camera. These instruments are new, in box and complete with instructions, as received direct from the factory. Every instrument is backed by our usual guarantee.

GENERAL SPECIFICATION.—Light, strong and substantial, constructed of well seasoned hard wood, neatly covered, large reversible brilliant view finder, leather bellows, with truncated corners, nickel plated fittings, U shape front, of new design, with broad base, rack adjustment for rising and falling front, automatic front clips, focussing scale, with infinity catch, hooded back focussing screen. The lens is a very high class anastigmat, working at F/6.8, fully corrected and constructed to a world famous formula, mounted in General automatic T.B. and I. shutter, fully speeded to 1/100th. Camera is bushed for tripod, and complete with 2 metal plate holders. List price £6 6s....42/-

BRITISH AND BEST.

Unsolicited—N.S., of King's Norton, writes:—"I am more than satisfied with it. It is remarkable value for the money. I shall have great pleasure henceforth in recommending your firm."

W.J.B., of London, N. 1, writes:—"I have found the instrument excellent in every way. The value is remarkable, and all my friends to whom I have shown it express their admiration."
